

Further Bodies From Wrecked Ship Alaska Bring Known Dead Up to 20; Seventeen Others Are Still Missing

SAN FRANCISCO, Aug. 9.—The discovery of four more bodies today brings the number to 20 persons known to have lost their lives when the *Alaska*, an Alaska whaler, was wrecked in the California coast last Saturday. Seventeen others, known to have been aboard the ship, are listed as missing, and almost certainly can be accounted dead.

An investigation of the wreck of the *Alaska*, will begin in San Francisco Wednesday. Passengers and members of the crew have been summoned to testify.

SAN DIEGO, Calif., Aug. 9.—It is expected that the passengers, many of whom had been rescued by the *Jewell*, stranded on San Pablo Reef in the Pacific, will be taken aboard the destroyer *Farquhar* and brought to the port.

The *Alaska* has been missing since Aug. 5.

The *Alaska* left here this morning for the stranded ship.

The steamer *Gibraltar* will attempt tomorrow morning to bring the stranded survivors from the reef. In an effort to save the *Alaska*, the crew in the forward hold was being discharged today.

CALGARY WANTS ACTION ABOUT CATTLE CRISIS

Calgary Board of Trade Asks Conference of All Interests Concerned

WOULD EXTEND CREDIT

Breeding and Unfinished Stock Is Now Being Thrown on the Market

CALGARY, Aug. 9.—To bring the crisis in the cattle market of Canada immediately to the attention of the prime minister was the decision of the Calgary board of trade which met Tuesday and decided to send a telegram to London to forward to the prime minister to be forwarded to Right Hon. Arthur Balfour.

The three-pronged combination of causes for the market for Western Canadian cattle is that the animals are injured and in danger of death.

That the raising of cattle forms the very foundation of the agricultural economy of this country.

Through the decrease that has already taken place in the price of livestock a decrease of more than 25 per cent. has taken place in the average value of Western Canadian cattle.

The monetary pressure is causing many farmers to sacrifice their cattle to the market, and the result is the cost of production that is destroying their own assets and demoralizing the market.

The present condition is affecting not only the agricultural but the transactional, financial and manufacturing industries. The diminution and threatens to injure greatly the general prosperity of a large portion of the population.

That the application of such remedies as would be effective to meet that immediate relief be secured.

The conference accordingly requests that the prime minister of Canada will cause a comprehensive report to be made by the Bank of Canada, farmers, stockmen, manufacturers and others concerned, to be held at an early date to consider the effect of the livestock market from all angles and remedies for same, and especially to consider the effect of the same on the farmer and stockmen on the one hand, and the breeding and unfinshed stock on the market at sacrifice price.

Those present were W. G. Peters, president of the board of trade, R. F. Frear and J. H. Hanna, president of the Alberta branch of the Livestock Exchange of Canada.

R. F. Frear and J. H. Hanna were also present on invitation and the committee some interesting facts.

WATERWAYS TRAIN DERAILED THIRTEEN MILES FROM CITY

Owing to a spread track immediately west of the city, about thirteen miles north of the city, the incoming regular Alberta and Great Waterways train derailed at 12.45 a.m. on the 8th, the engine tender and four cars derailed.

A train was dispatched by the railway officials to convey the passengers to the station, and another train, under direction of G.P.R.C. engineers, on the local and express tracks, at 10.45 a.m. The special could not proceed to town, so the passengers were compelled to turn over to the local train, threw their bedding and unfinished stock on the market at sacrifice price.

Those present were W. G. Peters, president of the board of trade, R. F. Frear and J. H. Hanna, president of the Alberta branch of the Livestock Exchange of Canada.

R. F. Frear and J. H. Hanna were also present on invitation and the committee some interesting facts.

Passage Between Ends of Veteran Clogged by Several Shoe Buttons

BOSTON, Aug. 9.—X-ray photographs taken today show there are six shoe buttons through the cranial bone of a wounded veteran of the Canadian Expeditionary Forces, who was admitted to the Massachusetts clinic for diagnosis attending surgeon general of the Canadian forces, Dr. J. W. MacLennan, who attempted to pass the buttons through his nose, the other became clogged, and the photographs taken for the first time show the buttons.

Three of the buttons have been passed through his ear and two through his nasal passage.

It is believed the buttons were ordered to be serious because of the danger that hooks on the buttons may catch in the brain and rupture a blood vessel.

Dr. MacLennan said the cause of the buttons was an accident.

The experts will be called to determine what can be done.

Dr. MacLennan said the button.

The *Star* is unable to find of what the button is made.

FISHING SCHROON REPORTED ASHORE

GLoucester, Mass., Aug. 9.—The fishing schooner *Gloucester Mary E.* Harry is ashore and full of water at Seal Island, Cape Sable, N.S.

It is reported to be a gale.

Tax Sale Must be Held This Year City Council Has to Carry Out Act and Waive its Objection

(Continued from Page One)
telling the sale of milk in the city was passed and now go into force.

Against Exemptions

The trustees of the Commissioner's college applied for exemption under section 100 of the Act, which was purchased by the city. The agreement provided that a certain amount of the tax roll at the year 1922. The property has been assessed up to the tax roll at an assessed value of \$1,000,000, and the supplementary revenue \$23,837 total.

Mr Abbott said that he did not think a college could be treated as a public service, but that it was opposed to granting the application for that reason. If council started to make exemptions, they would make a good deal of trouble. He said that the property should be dealt with in the same manner as other properties. Certainly their work was important. Certainly every dollar it was worth.

The city commissioners said that they had no power to waive the property to the city if the taxes were removed.

The matter was referred to the finance committee.

Council

It was agreed that the tax sale proceedings should be cancelled against 14th Grove Park, belonging to Dr. J. W. McDonald, who stated that this property should have been sold at the time of lands which were before the city commissioners for consideration in respect to the taxes.

The Bond Sale

The commissioners presented the following statement from Messrs. Wood & Co.:

"For your information we have to state that the city commissioners have issued \$1,000,000 of the consolidated issue, and that the amount of \$1,000,000 will be available to be expected during the summer months, but we are gradually dispensing with these bonds."

Interest on Land Loans

The city commissioners presented the following statement concerning the amount of interest paid to the bank in respect to the loan obtained in January last:

"A sum given to the Imperial Bank January 20, 1921, amounting to \$44,594.65 and bearing interest at the rate of 6 per cent, was held until it was redeemed on June 21. The amount of interest paid on this note during the above period amounted to \$112.64. The bank allowed the same rate of 6 per cent, and the amount paid for the redemption of this note amounted to \$13,000, which makes a net payment of interest to the bank to \$12,886.63."

At the request of Mr. Abbott, the commissioners promised to furnish a complete statement of the cost of the city to the Morris Brown Fund.

Water Expenditure

The application for extension of water supply to the city was as follows: Subdivision was not granted.

Compensation Question

The question of compensation of payment of wages to Mortenson A. H. and his wife, Mrs. Anna H. H., may assume some time ago, came up again recently. Mr. Abbott said he had declined a post as almanac.

Mr. Berry informed council that he had been offered a position as a doctor, as his nerves were not very good.

The master was left over in order that master might be taken up with the new work.

In the meantime the city will continue to pay him the proportion of his salary not covered by the compensation.

Ask for Refund

The Hudson's Bay company has agreed to refund the amount paid by them for the extension of the electric light system to the party upon which the Hudson's Bay company's houses were subsequently built, and the amount of the payment is naked.

The matter was referred to the finance committee.

DANISH TEAM LANDS

CLEVELAND, O., Aug. 9.—The Danish team lands service arrived from New York today and want to sell the horses to the public.

The Australian team arrived yesterday and put some time in preliminary work at Mayfield.

COALITION HAS TROUBLE FINDING GOVT. CANDIDATE

**Favorites Refusing to Stand For
By-Election in Westmin-
ster Abbey**

London, Aug. 9.—(Canadian Press)—The anti-government economic campaign which has achieved such surprising success in recent years is apparently putting an increasing strain to the position in finding a suitable candidate for the by-election in the metropolitan constituency of Westminster Abbey, where several favorites who were returned unopposed at the last general election have withdrawn. A favored name has been put to stand and other like-minded persons are also being considered. Doubtless remembering the reverse of the situation in 1926, when the by-election for the neighboring constituency of St. George, Westminster, was won by a member of the majority of the previous election of Right kind, Mr. Tom Lunn turned his attention to that district, where he can fight on the economy issue, and sees a good chance of winning it for the Abbey division.

The anti-war party continues to find itself in a departmental extravagance, allying that the seven members of its executive committee and ministry of food have sought cover and emoluments—in the board of trade while in office. In the first three years of existence has acquired \$2,000,000 in extra salary, a combined salary reaching an annual total of five million pounds sterling and the total cost of the department is twenty millions a year.

**Noted Golf Player
Killed by Auto in
Front of His Home**

Atlanta, Ga., Aug. 9.—Douglas E. Hodge, noted international golfer and player and voice coach of the Canadian National team, was killed in a car accident at night at a local hospital a short time after being knocked down by a motorist in front of his home. The automobile failed to stop, it was said, and early today the police were investigating the circumstances and identity of the driver.

Mr. Hodge, a professional at Druid Hills Golf club here, was about 40 years of age. He was a native of Atlanta and had been a resident in the United States a number of years. He went to Scotland several months ago to compete in the British Open tournament in the British Isles. Since, however, previous to the start of the United States open tournament the summer and was also given the chance to compete in the British Isles, he did not return. The title, which he won in 1930 and 1931, his wife and children are visiting in England.

**Harding Signs Order
For Joint Commission
On Pulpwood Question**

Washington, Aug. 9.—The joint resolution providing for the appointment of a joint commission to inquire into the pulpwood question in the dominion authorities as to the restriction of the export of lumber from Canada to the United States, introduced this morning and it is expected the measure will be voted on at once. It is expected the president will sign the commission at the earliest opportunity.

A meeting of the South Woods Committee was held at the Hotel Royal in the Library basement Friday evening. August 12th at 8 o'clock.

**Federal Labor Party
Now Being Promoted
To Cement Branches**

Toronto, Aug. 9.—Secretary James Simpson of the Ontario section of the Canadian Labor party said yesterday that the executive committee of the United Labor party, which exists between the two labor political organizations during the trades union period, has been dissolved. Winnipeg. He received a wire to this effect from Winnipeg yesterday, which gave rise to speculations that the former had been annihilated. The result of the negotiations heretofore has been that the Canadian Labor party, for the purposes of creating a federal labor party.

Aerial "Highwayman" Rides Motor Boat By Cinders

Prentiss, Ill., Aug. 9—Sweeping down over the Illinois prairie in his machine gun wide open and spraying the water with a rain of lead, a daredevil aviator yesterday afternoon rattled and roared through the air, shooting five people severely wounding a girl passenger and slightly injuring a man.

Mexico City Hardly Safe for Democracy And Newspaper Men

Mexico City, Aug. 9—General Alfonso Jobean, brother of the Mexican president, has been shot and killed in the忠告 to the editor of the newspaper "El Maestro" in Mexico City. Jobean was shot and instantly killed late evening one of the main streets in the residence section of this city. He was armed with a pistol and a revolver. General Trevino, director of the Federal commission responsible for the protection of the press, said that the disposition of the police and the army had been held upon his own responsibility.

The cause of the attack upon Gen-

eral Jobean is unknown.

The anti-war party continues to find itself in a departmental ex-

travaganza, allying that the seven mem-

bers of its executive committee and min-

istry of food have sought cover and emolu-

ments—in the board of trade while in office.

In the first three years of exist-

ence it has acquired \$2,000,000 in extra

salary, a combined salary reaching an annual

total of five million pounds ster-

ling and the total cost of the department is twenty millions a year.
